34,000 Majority

Democrats Make Old Time Sweep in Kentucky.

Republicans Will Have Only Twenty-Six Members in General Assembly. Only 11th District Republican.

Kentucky went Democratic last Tuesday by over 30,000 majority. Ten of the eleven Congressional districts gave Democratic majorities, and the 11th failed to do anything near what O'Rear and Langley were claiming.

Telegrams of congratulations from prominent men from all over the United States have been pouring in to Senator McCreary, one of the first to bring from William Jennings Bryan.

Louisville gave the Democratic ticket more than 6000 majority, a difference of about 14,000 from four years ago.

The lower house of the Legislature is composed of about 26 Republicans and 74 Democrats. The Senate is also largely Democratic.

The Democrats of Mason and Lewis counties elected a Senator, for the first time in many years.

Montgomery county, O'Rear's home, gave 430 majority for McCreary, this being about 50 per cent more than the usual majority.

Lloyd county gives O'Rear less than 100 majority. Dr. Wade

carried it for Representative.

Later 103. Bunde Kirk was elected to the Senate, a majority for Johnson and Lloyd, candidates by a greatly reduced majority.

Miss D. Bond, Democrat, made a very creditable showing in that Republican and Miss Clark. O'Rear carried Johnson and Kirk 276. Martin Vallin, also reported to have given 800 less than 300.

Hall, Landau, and Lawrence, Flynn, Christopher, and Railroad Commissioners, Herbe, Jacky, thus giving the Democratic party a majority of that body.

He, Ky., Nov. 8.—The figures given out here today are Thomas A. Coombs, Democrat, defeated for the State

116; D. C. Hunter, Democrat, defeated for the State

116; T. Tunis, Fusion-Republican, Representative, by a small majority, while over 1,000 Fusion-Republican, giving Fayette county a Democratic member of the Assembly. Col. Richard C. Stoll, Democrat, Representative, was in the Legislature from the time McCreary was Governor.

BIG SANDY NEWS.

OUR SCHOOL DEPARTMENT.

The following announcement is for the Ninth District Educational Association on November 24-25:

The spirit of co-operation has abounded among us and has, at last, bloomed into this magnificence. However, the Ninth District Educational Association, Every county and city superintendent, every high school and rural teacher in the district are justly proud of the organization; and large hosts are making preparations to attend this first meeting at Carlisle, and to become charter members, so to speak of the organization.

The Ninth Congressional District, composed of the counties of Lawrence, Boyd, Greenup, Lewis, Bracken, Mason, Harrison, Nicholas, Fleming, Bath, Carter, Robertson and Rowan, though one of the last to perfect an organization of its educational forces, is one of the most progressive districts in the State, and one which has led in many of education movements that are now stirring the State of Kentucky to its depths. Our present State Superintendent, Leon Ellsworth Regenstet, was reared in the Ninth, being a native of Lewis county. Our former State Superintendent, Dr. J. G. Prather, went from the Ninth to an high and honorable position. No district has contributed more to the cause of education, and none can boast of more progressive, wide-awake, educators.

Program.

The program is replete with excellent addresses. While in this announcement it is impossible to mention all the speakers, we shall mention, at least, enough to whet the appetites of those who ought to "in feast of reason and flow of soul."

Dr. J. G. Crabb, President of Eastern Kentucky State Normal, and one of the most charming and eloquent speakers in the South, will address the Association on "The Relation of the Normal School to the State."

W. C. Kaze, Carter county's able and brains Superintendent, will present "The Rural Schools — Their Relation to the Welfare of the State."

McLevy Ihards, State Supervisor of High Schools, will address the Association on "The Opportunity of the Modern High School." He is acknowledged as the best authority on the subject in the State.

T. J. Coates, State Supervisor of Rural Schools, is gathering material in the different counties of the State, as he supervises ten of our best counties, to give us a great address on "Things Worth While." It will be worth anybody's trip to hear this address.

B. F. Stanton, Superintendent of Ashland City Schools, will present, in his masterly way, the subject, "The Task of Modern Education."

F. C. Button, President, Morehead Normal School, will make an address on, "The Rural Night School as a Factor in Education."

J. T. C. Noe, Dean of Department of State University, will speak on "Kentucky's Educational Awakening." This is a great subject and will be presented by one of Kentucky's best educators.

Dr. Malcolm Dills, of Carlisle, will address the meeting on "Health and Education."

R. S. Eubank, Editor of the Southern School Journal, will favor us with one of his happy helpful addresses on "The Work of the Reading Circle."

W. L. Jayne, of Boyd county, one of the most active county superintendents in the State will address us on "Lightening the Load."

Jay O'Daniel, Superintendent Lawrence County Schools, another fine wire, will present his views on "Meeting the Demands."

Miss Jessie O. Yancey, Superintendent Mason County Schools, one of the best authorities in the State on "Consolidation," will address the Association on that important subject.

Miss Lida Gardner, Superintendent Nicholas County Schools, whose energetic and successful efforts to organize and grade her schools are known far and near, will discuss "Problems of Supervision."

One of the features of the program will be an address by J. W. Riley, County Judge of Ioway County, and formerly an educator in the Ninth District, on the subject of "Education and American Independence."

Several other prominent educators are expected to take part and their names will be announced in the regular program.

Evening Session.

One evening session will be held and the audience will be regaled with an address by Hon.

Barksdale Huntlett, Superintendent Hopkinsville City Schools, and an address by that peerless wit, Prof. J. S. Diekey, President Howling Green Business University. An excellent musical program will be rendered by Carlisle's noted musical talent.

Place of Meeting.

Carlisle is a place far famed for its genuine Southern hospitality. It is a city of cultured and refined citizenship, and contains some of the most elegant homes in the State. "A stranger within its gates," immediately begins to feel the spirit of hospitality and good cheer; and to be there once is to have implanted in the heart a strong desire to return.

The good people of Carlisle are making great preparations to make the stay of members of the Association pleasant while there. Several committees of representative men and women are hard at work now completing these arrangements.

Hotels.

Potts Hotel will be the Association Headquarters, and reasonable rates will be arranged.

Hotel Fitchuck, also offers excellent accommodations.

Several good boarding houses are convenient to the building in which the Association will be held, and a number of private homes will be opened.

Railroad Rates.

Perfles of ten or more can secure on all railroads a rate of two cents per mile.

Price Offer.

Mr. C. H. Dethleffs, of the American Book Company, has made to the county in the District which sends the largest delegation of members the generous offer of a library, consisting of Libraries No. 4 and 8, published by that company. To these libraries will be added one copy of Carpenter's "How the World is Housed," and one copy of Goff and Mayne's "First Principles of Agriculture."

The County in which the meeting is held will be excluded from this contest, owing to their advantage over the others.

Work of the Association.

It will be the aim of the Association to promote the cause of education, in the State, and, especially, to advance by persistent, organized effort, the welfare of the cause in the Ninth District. Its object will be, too, to promote necessary educational reforms. Every superintendent and teacher in the District should feel a thrill of pride and patriotism in this organization, which though an infant, is a sturdy one; and everyone should take a personal pride and interest in fostering its growth and development. The meeting at Carlisle is all important. It will be significantly historical. Let all who claim the dear old Ninth as their home, and who enjoy the benefits and blessings of its circle, bestir themselves to make this gathering the greatest of its kind ever known in the State.

All who expect to go, and also those who want to become members, will please send at once 50 cents to Supt. Jay O'Daniel, Louisa, Ky.

Madge, Ky.—Interest in the school seems growing. Attendance is good, but still not what it ought to be. The children are anxious to make good grades in the examinations. The highest grades for the third month's examination are as follows: Bess Bradley 97; Ivory Burroughs 95; Lee Nolen 91; Ernest Thompson 91; Inez Wellman 88; Gertrude Damron 87.

Almost all of the pupils are doing good work. OTHA HERRIE, Teacher.

Pench Orchard, Ky.—My school is progressing very nicely, and I am very well satisfied with the advancement most of those are making who are regular in attendance. My greatest trouble at this place is irregularity in attendance. We hold our monthly examination at the close of the month. Alma Castle and Hattie Pannin received the highest grades.

A. W. OSBORNE, Teacher.

Ulysses, Ky.—Report for third month:

Grade I, Bracken Skaggs 80; Lillie Boyd 78; Grade II, Vera Chaffin 82; Mary Hatfield 81; Grade III, Frank Castle 80; Charley Chandler 80; Grade IV, Arthur Chandler 82; Dore Allen 80; Grade V, Roy Lowe 83; Willie Thompson 82; Grade VI, Pupils did not attend examination. Grade VII, Jeff Chandler 87.

I give two from each grade who took the examination. Other made excellent grades. These grades I am sure, are not higher than they should be.

We have purchased a library.

We now have our books in school, and I find the pupils are anxious to peruse their pages.

We bought fourteen volumes and will increase the same before the close of the term.

I am sure each teacher in the county can secure a library, if he will only make an effort.

My average for the third month is 39. The same was reduced to this figure on account of high water.

Had it not been for that, my average would have been something like 40 or so.

Prospects are better for the present month.

I am glad to say that my patrons are giving me their support in all that I ask them to do.

Very truly,

H. S. DEAN, Teacher,
Rd. Inv. No. 2, Subdist. No. 10

All educational articles received by the editor of this department have been handed in for publication, but there is not space to print all of them.

Once more we ask teachers to report the general average and not the grades in each branch. Do not give the name of any pupil whose average grade falls below 75 per cent.

Don't waste your money buying strengthening plasters. Chamberlain's Liniment is cheaper and better. Dampen a piece of flannel with it and bind it over the affected parts and it will relieve the pain and soreness. For sale by all dealers.

ISONVILLE, KY.

Continued wet weather has greatly retarded fall work in this vicinity.

Much of the fall sowing of wheat and rye will have to be given up and not sowed at all or sown in oats in the spring.

There was only a fair yield of sorghum of a dark strong quality.

But there is generally enough of all farm products grown in this section for domestic use.

Gov. McCrory will be inaugurated on December 12th.

McCrory has "come back" after a lapse of 36 years.

The weather was ideal, and the result—wasn't it perfectly lovely?

Yes, it was quite a landslide, but next year it will be an avalanche.

SORGHUM.

A Kentucky newspaper recently recorded the fact that during a revival meeting the exhorter shouted: "Everybody who wants to go to heaven stand up." The veracious local choralde averred that not a single person responded, but instead of attributing the lack of enthusiasm to the inherent wickedness of the community he proceeds to explain by saying that the home town is such a good place to live in that nobody wants to leave.

There is something more than plausible about the explanation when one considers the season of the year. Without doubt there must have been a sorghum kettle in blast somewhere near the scene of the revival, and no good Kentuckian is so deluded as to hanker after manna ambrosia, nectar or any such feebly flavored messes, as long as he has the assurance of waking up in this world to watch a pile of golden brown corn cakes dripping with fresh sorghum and butter fade away into his esophagus apparently of their own volition and without effort.

A nice fried chicken or a tender young rabbit weltering in its own gravy, with a few baked potatoes and other accessories, will serve as a groundwork for the gustatory edifice, but the planeling delight, the cupola which crowns the feast with a golden dome more satisfactory to the normal human being than all the auriferous towers of Paradise, is that pile of cakes saturated with the divine essence, of the cane. You crowd in a cup of clear hot coffee, lurch out into the crisp November sunshine with your pipe in your mouth and ruminant with satisfaction on the fall farm work already well in hand, and lo! it comes to you again—a honeyed breath from some neighbor's kettle. 'Lasses bila' time's no time to talk about goin' to heaven.—Courier-Journal.

says he was re-elected a director. Mr. Scott was succeeded by Gen. Thos. H. Hubbard, of New York, who is chairman of the executive committee of the Chicago and Akron road also a Hawley property.

Whether these things have anything to do with an requirement of Carolina, Clinchfield & Ohio Railway by the Chesapeake and Ohio does not appear, but the several items would seem to indicate that an important step has been made or is about to be taken.

At Norfolk it is reported that the New York Central has acquired or are about to acquire the Virginia Railway, that was built by the late H. H. Rogers of New York, as a great coal carrying road of easy grades all the way from the coal fields of West Virginia to the Chesapeake Bay, and it is intimated that the changes in the directorate of the Chesapeake & Ohio may be on account of negotiations that considerable rivalry and competition will result between the roads.

MAN KILLED IN BOONE COUNTY.

A crowd of young men from the neighborhood of No. 8 mines came to Ashland Saturday evening, and it is reported visited number of "Flip Joints," in the city, and about seven o'clock started to return home. Arriving at the foot of the Austin Hill, it is said they stopped at another alleged "Flip Joint," operated by a man by the name of Tufts, and after leaving this, most of the crowd was pretty well under the influence of liquor. About halfway up the Austin Hill, James Evelyn and Clyde Robnett, two members of the party became involved in a quarrel and several blows were struck. Robnett claims that Evelyn struck him in the mouth with his fist and as he tried to get away, he followed him up with repeated blows. Robnett says he then drew a knife from his pocket, and opening the blade, struck at Evelyn in an effort to defend himself. The blade entered Evelyn's breast, directly over the heart and the wound was of such a nature that Evelyn dropped dead in his tracks.

Robnett, after seeing what he had done, retraced his steps to this city, and going to the Police Headquarters, surrendered to the officers, and he was placed in the city jail, pending examination. Evelyn, the dead man, was 38 years of age, single, and was a cripple, having a wooden leg. Robnett, the user of the knife, is a young fellow, just 20 years of age, and was also single. They both reside near No. 8 Mines, and had, previous to this time been good friends.—Ashland Independent.

THE TRUE TEST.

Tried in Louisa, it has stood the test.

The hardest test is the test of time, and Doan's Kidney Pills have stood it well in Louisa. Kidney sufferers can hardly ask for stronger or proof than the following:

Mrs. Sarah Pigg, Madu St., Louisa, Ky., says: "I suffered from many distressing symptoms of kidney trouble. My back was the weakest spot and the dull, heavy pains through my loins were almost unbearable. I was weak, tired and devoid of ambition and often was annoyed by headaches and dizzy spells. The kidney secretions also bothered me and I felt like giving up. Doan's Kidney Pills were brought to my notice and I began their use. Before long the passages of the kidney secretions were regulated and the other symptoms of my trouble disappeared." (Statement given June 21, 1908.)

No Trouble Since.

On June 22, 1909, Mrs. Pigg added to the above: "During the past year and half, I have not had the least return attack of this complaint."

KILLED AT NOLAN.

Hal Starr, aged nearly 70 years, was instantly killed Tuesday evening near Nolan when the engine of passenger train No. 16 struck him. Starr and several boys were walking along the track and a freight train going west prevented them hearing the approach of the passenger.

The boys, who had been hunting, jumped in time to save themselves but Starr was struck and his body hurled with great force, struck one of the boys, knocking him through a barbed wire fence.

The FUR SEASON IS HERE

The choicest selections from our magnificent stock of fine furs will be made within this month. The advent of cold weather will bring these items into sharp demand and as early selection is always best in the selection of articles of wearing apparel.

These furs are WINTER KILLED when the skins were in their best condition and the proper tanning and treatment has given our fur stock a distinct advantage over the average for showing.

Furs in sets of collar and muff in a wide range of pretty and new effects and in a wide variety of kinds and prices. Genuine black lynx is very popular and mink stoles and muffs are much in demand as furs of the better class. We have separate pieces and our stock is so large and varied that we can usually match any piece you may now have in order to make a complete set to match.

In addition to our regular stock for the season the purchaser will find a superb stock of fur coats ranging all the way up to one hundred and fifty dollars in price and at all lower prices in the range of a good serviceable coat of this kind.

Do not overlook the solid and substantial values we are offering in our cloth suits and coats for the winter season on your next visit. We are more than pleased with the results of our opening fall business and are actively engaged in securing those later suit and coat models that make their appearance late in the season after the style trend has become pronounced.

FREE RAILROAD TRIP TO CINCINNATI.

A. E. Burkhardt, the International Fur Merchant, who is marking Cincinnati famous as one of the world's great fur centers, extends an invitation to all the citizens of Louisa, who intend to purchase furs for this season, to visit Cincinnati and inspect his enormous plant, where furs are manufactured and direct "From Trapper to Wearer," thus eliminating all "middle-men" profits. They are the largest purchasers of raw fur skins in this country, being exporters, importers and manufacturers; and their low prices on furs of all styles and varieties for women's wear are positively beyond all possibility of competition. This is the generous proposition he makes:

Go to Cincinnati, look over A. E.

Burkhardt's enormous stock in the two 6-floor buildings at the corner of Main Street and Third Avenue, select just what you want, and the cost of your railroad fare, for BOTH WAYS, will be paid by the firm, providing it does not amount to more than ten per cent of the purchase price of the article.

goods are marked in plain figures and you need not mention that you wish your railroad fare paid until AFTER making your A.

WEEK OF PRAYER.

The ladies of the M. E. Church, South, will observe the period from Nov. 20 to Nov. 26, inclusive, as a week of prayer. Meetings will be held during the week at various residences in the city. On Monday the meeting will be held at Mrs. M. F. Conley's, led by Mrs. J. W. Crites, subject, Praise and Consecration; Tuesday at Mrs. Augustus Snyder's, subject, "Rio do Janeiro," led by Mrs. G. A. Nash; Wednesday with Mrs. Guy Atkinson, subject, Foreign Mission Quiz, led by Mrs. F. T. D. Wallace; Thursday with Mrs. Caroline Burns, subject, Administration Quiz, led by Mrs. Mary Norton; Friday with Mrs. Nash, subject, a Bugle Call, led by Mrs. Carrie Burns. Saturday to be a day of general prayer, with formal exercises or general meeting place. The week will be closed on Sunday night, Nov. 26, with a sermon in the M. E. Church, South, by the pastor, Rev. J. W. Crites. His subject for this occasion will be "Harvest Time."

PSYCHOLOGY OF PROFANITY.

Dr. W. S. Hoy, of Wellston, attended a meeting of railroad surgeons recently and in the course of a discussion, made this remark:

"A man's subconscious mentality may draw upon the storehouse of his memory and enable him to use profane language while he cannot express an idea aloud."

And then he told of an operation on the skull he had witnessed that day where the patient could swear but could not tell what he was thinking about. So the psychology of profanity is that it takes the place of thinking and an oath denotes a lack of ideas; all of which confirms the truth of the remark concerning the old sailor "that he didn't know what to say and so he swore."

But Dr. Hoy's observation is interesting, that profanity comes instead of an idea and that a man needn't have any sense to swear.

HALLOWEEN REVELS.

KENTUCKY MOUNTAIN MAN WANTS A JOB.

The movement for a safe and sane Fourth of July should include a decent Hallowe'en. From every section of the country come stories of wild excesses, loss of life being coupled with the wanton destruction of property. In Hopkinsville one man killed two other men, one of them his own brother, in a drunken revel. In Cincinnati and Louisville the police were defied by drunken toughs who, taking advantage of the occasion, committed the grossest excesses. In Huntington some wretch threw a chair through a big plate glass window in the residence of a prominent citizen. Much mischief was done here, not one of the many things done having the smallest tinge of humor. What fun could there possibly be for instance, in breaking an iron fence around a yard, or in cutting into ribbons a lady's rain coat, left for a moment on a porch? Such acts merit the severest punishment.

"Uncle Sam, Governor of the U. S., I want to be an officer of the U. S. there is whisky sellers and robbers and murderers that can be created by an officer fess ever week that is not noticed by the county officers. Yours truly."

The official who had the letter in his possession would not give out the name of the writer, despite the fact that he spelled officer three different ways.

No doubt this man wants an office, but what he needs is a spelling book.

That Satisfy

An object lesson for the literate.

The News has learned of the work of an aged woman in Rowan county which should bring a blush of shame to the cheek of every young man and young woman in this or any other county who is unable to write his or her name. This old woman, through neglect on part of her parents, or possibly because of a lack of opportunity when she was young, could neither read nor write, but she wanted to learn before she died, so she started to school as a pupil and in two weeks learned to write a legible hand and wrote a letter to some friends. And she was 86 years old when she wrote it! What a rebuke this should be to the "punny young men who, in these days of free schools and free books can not read and write."

THE WHITE SCHOOL.

It Looked Like the Negro School, but This Was a Mistake.

During one of my drives of exploration I passed a school in Spencer county, about thirty-five miles east of Louisville. At first sight I was sure I had stumbled upon a typical negro school, but as I went about the yard with my camera a farmer who lived near by came over to see what I was doing.

"How long has this colored school been here?" I asked.

"This is the white school, an' I don't know how long it's been built. All I know is that it wasn't noways new

THE ANCIENT WRECK WITH ITS BAGGIO FLOOR.

when I moved into this neighborhood thirty years ago comin' May."

"When was it painted last?"

"Painted?" It's laughed good naturedly as he took a fresh chew of his twist. "Painted? Why it ain't never had no paint on it that I ever see or heard of."

I looked at the ancient wreck, with its sagging floor, its scattered rock about the door where there should have been a walk; then my glance fell upon a new, sturdy long distance telephone pole which stood close to one corner of the building. I walked up and, placing my hand against it, waded and fell to thinking. Suddenly the busy humming of the wires seemed to be whispering insistently to the broken house: "Wake up! Wake up! We are not asleep today! We are in the hurrying and scurrying twentieth century! Wake up and join the procession!"

On the far side of the school I stumbled upon some old fashioned hand-made desks and at once asked my farmer friends whers they had come from.

"Why, they come out of the school there, of course. The children used 'em until this year, when they put in some new ones."

My next search was for the closets. I knew there was no coal house on the premises, for the old desks were piled

"THIS HERE IS A PAUPER SCHOOL." upon the top of the winter's supply of coal. I was unable to find even the remains of any closet, so I again questioned my farmer friend.

"They ain't never had none since I been in the neighborhood!"

"Haven't had any closets at all?" I exclaimed in amazement. "How can your teachers handle a school without closets?"

The man hesitated a moment, shifted his gild to the other side of his jaw and answered quietly:

"Gawd knows, I don't."

"How do you happen to have such a poor schoolhouse in this part of the country—the hund looks pretty good?"

"You see, this here is a pauper school."

I pretended not to understand him fully, so I asked:

"My, that's too bad. I had no idea that the farmers up here on the headwaters of Salt river were so poor. You haven't even got a church in the neighborhood, thou?"

"Oh, yes! We've got a mighty fine, broad new church a mile out the plko from here."

"State built that, too?" I suggested.

"Why, no; the folks all chipped in and built it," he explained carefully.

"We ain't poor folks at all."

"Why couldn't you folks chip in and do something for this old tumbledown school?" I asked.

"We could have done it, couldn't we?" he exclaimed. "I reckon we just never thought about it that way."

Education Pays.

The state of Kansas, though less than sixty years old, has excellent schools, and her taxable property has increased at the rate of \$120,000,000 annually during the past ten years, a total increase of \$120,000,000 in a decade. This is twice the total assessment of Kentucky.

The valuation of real property in Kentucky is \$47,825,250. In Kansas the same class of property is valued at \$157,948,700.

The valuation of personal property in Kentucky was \$143,013,000, while in Kansas it was \$880,043,000.

The total assessed valuation in Kentucky was \$64,480,000 and in Kansas \$2,453,691,850.

The above figures are from the World Almanac for 1910.

Isn't the lover who braves the storm a valie-beau?

It doesn't require an axe to cut an acquaintance.

Corn on the cob is more acceptable than corn on the foot.

There is no impropriety in using a spring wagon in the fall.

It isn't very long before the "good fellow" is a poor fellow.

Women are valie, but men are much more so and with far less reason.

Many a man is in great fear that he will get all that is coming to him.

We notice that most people who are recompensed by enrosty still survive.

If our mistakes teach us nothing it were hardly worth while to make them.

A horse is not of any use until it is broken, but it is different with it.

Though we may never have lost any, most of us are looking for money all the same.

A hen will spend a whole day getting up an egg that a hungry man can eat in a minute.

When you buy a halky horse you may not pay for any bairness, but you will be sure to get a halter.

The wise man does not let his wife hear him boast that he is a good manager; she knows better.

Don't wait for success to come in your yard. Grab it by the collar and yank it inside the gate.

Woman's Wisdom.

When pin-feathers come out with difficulty, wrap a piece of muslin around your finger to pull against.

If you would have light dumplings leave the cover off for about ten minutes after you have put them in.

People who do not like the country because there is so little going on, are those in whose heads there is less going on than even in the country."

Mix your griddle-cakes, waffles, fritters, etc., in the upper part of a double boiler instead of in an ordinary mixing bowl, and you will find the handle very useful to hold it by when frying them.

When you buy the children's underwear for the winter, sew a piece of tape, about three inches long, across the bottom of the legs. This will prevent the drawers from wrinkling up when the stockings are put on.

Do not forget to give the baby plenty of water. Milk is a food, and does not take the place of water as a drink. Plenty of water between feedings, taken either warm or cool, is a great aid to the bowels and kidneys.

One housekeeper has prevented many a burned roast or overbaked cake by setting the alarm clock to the proper time to open the oven door. Then she goes about her work in the other parts of the house, knowing that she will hear the imperative call at the right time.

The Poultry Yard.

Lay in the winter's supply of road or sifted corn-ashes, as it will be needed for dog baths.

A load of gravel scattered around houses and coops would greatly contribute to the health of many a flock.

A hen will eat at least a bushel of a corn a year if she can get it. Put aside that amount for each one, and see that each one gets her share.

Let dressed poultry of all kinds be cool clear through before offering it for sale. Live poultry does not sell so well as that which is good and stiff.

Secure a lot of leaves or other light litter for use during cold weather, or in making the hen exercise. Idle hens become mischievous and unhandy stock.

Gather in the poultry that have been allowed to roost outdoors. The sooner they become accustomed to the house the better it will be for their health and improvement.

Garrison on the Farm.

Paint the ladders and store them away in the barn.

Brush the grain out before the rats and mice do it for you.

Don't stand too much on your dignity—you might 'sp' and fall.

the outdoor work that has been put off, lest winter catch us unprepared.

Selling the farm and moving into town to join the store-box club is a good deal like trading off the best cow for a yellow dog. Don't do it, brother, as long as you can plow a straight furrow.

If you had to stack hay out this year, look at the tops before winter sets in—they sometimes set badly, so that the storms are likely to injure the hay very much.

If this is the case with yours, top them again. Thick, fine grass is the best for this purpose. Tread it down well.

With the Live Stock.

Clean, dry bedding is a prime requisite in the care of live stock.

There are no exceptions to this rule.

Folks will begin now to set their milk in the kitchen pantry. It is a poor place at best, and to get good cream you must keep every single thing away from the milk that has any smell about it.

The mare with the fall colt should be kept most of the time in a roomy, warm box stall.

The colts and nuzzled horses should spend most of each pleasant day in the paddock.

If any horses are to be idle during the winter give a light diet, but do not take all grain away from them.

Only the wealthy man can afford to keep a poor cow.

A chill brought on by the rider coming in contact with the frosty ground may ruin your best cow.

Shrinking in milk, lumps in the udder, starling coat, can all be brought on by one night on the frosty ground. All this means of hard cash. It doesn't pay.

Get the roots and other forage for the swine stored away for winter use.

It should be remembered that a hog's coat of hair is not heavy nor of the kind to keep out extreme cold. Consequently it feels the changes in temperature most keenly.

Rheumatism in hogs is caused by improper feeding, which produces indigestion, by lack of exercise and by dampness and exposure to drafts.

It is easier to prevent the disease than it is to cure it.

From November Farm Journal.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear.

There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube.

When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever; also cases out of ten are caused by Cataract, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness, caused by catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & Co., Toledo, O.

A LETTER FROM KANSAS.

Holbrook, Kans. Oct. 14.

To the News:

I would not have you think I am dead, but busy. It has been quite a while since I chattered my last little article to the News, and to be honest I could not explain why, myself. I enjoy the columns of the News, and always delighted to hear from home yet we sometimes get very busy and neglect things.

This year, I have been very busy being the president of the Board of Education and having a high school building to superintend, saying nothing of my every day duties in my professional work, but am glad to say we have the building completed and I might say it is a monument to our city, and a credit to the State. We have also selected our corps of Instructors from superintendent down to the primary grades, sixteen in all and they too are busy, and from all indication, we are having a splendid school. Most all the teachers employed have degrees from A. M. to Ph. D. We have two magnificent schoolbuildings in the city, well equipped in every particular, and we are maintaining one of the best high schools in the State, as well as a splendid course in all common branches.

Besides these advantages, educationally speaking, we can take any kind of course in manual training, engineering, architecture, etc. at our Y. M. C. A.

No school in the Union can boast of a superior school system as we

have.

HOME CIRCLE COLUMN.

COLUMN DEDICATED TO TIRED MOTHERS AS THEY JOIN THE HOME CIRCLE.

Hard heads, strong arms, and sunburned faces are honorable. Take "Exector" for your motto, and if you are patient, in a few years you can surely write under it that other good word "Eureka."

Youth and age have too little sympathy with each other. If the young would remember that they may be old, and the old remember that they have been young, the world would be happier.

Did you ever realize that nothing on earth can smile but a human being? Gems may flash reflected light but what is a diamond's flash? A face that cannot smile is like a bud that cannot blossom, and dies upon the stalk.

How sad is he, who can never go back to his childhood without a shudder. Who can never recall a period when his life was filled with sweet and simple satisfaction. When a kind and loving mother reads aloud to the family Home Circle department from the columns of this paper.

Now few, comparatively, of the young people of the present day, appreciate as they should the inestimable privileges they enjoy. Surrounded as are the young in all cities and most towns, with all the opportunities necessary for the cultivation to a literary taste, not one in a thousand appear to improve these golden chances. Occasionally it is true we meet with a young man or woman who firmly grasps the idea that "knowledge is power," but these unfortunately, are the exception, not the rule.

We doubt if one instance in a thousand can be found of a young man's making shipwreck of hopes and character who was accustomed to spend his evenings at home reading good books; and we say to any parent that a well stocked library and a good supply of newspapers and magazines, with the habit of reading on the part of your boy, is worth more to keep him out of mischief, and to make a man of him more than any other single influence at the command.

It is on a girl was not say the world owes you a lot that until you have earned one, and decide in boys and girls is the relief. It is true in my land. There is great work and just as for the young woman as for

Peach your children to 10% the beautiful. Give them a corner in the garden of flowers; encourage them to put it in the shape of hanging baskets; show them where they can best view the sunset; rouse them in the morning, not with the stern "time to go to work," but with the enthusiastic "see the beautiful sunrise." Buy for them pretty pictures and encourage them to decorate their rooms in this or their childhood way. Give them an inch and they will go a mile. Allow them the privilege and they will make your home beautiful.

There is food for thought in the story that is told of a young lad who for the first time accompanied his father to a public dinner. The waiter asked him, "What will you take to drink?" Halting for a moment, he replied, "I'll take what father takes." The answer reached his father's ear, and instantly the full responsibility of his position flashed upon him. In a moment his decision was made; and in tones tremulous with emotion, and to the astonishment of those who knew him, he said, "Walter, I'll take water."

Place a young girl under the care of kind-hearted women, and she, unconsciously to herself, grows into a graceful lady. Place a boy in the establishment of a thorough-going, straight-forward business man, and the boy becomes a self-reliant, practical business man. Children are susceptible creatures, and circumstances, scenes and actions always impress.

Mother's sometimes forget that the cative and receptive stage of childhood in the nursery is never surpassed at a later period. The little one is taking impressions every moment, acquiring goulle habits or the opposite, picking up words and sentences surprising his elders by the facility with which he learns what they would rather he should not know. In the baby's home the foundation is laid for the good or bad manners of the mature man.

NEWS FROM COUNTIES JUST ACROSS THE RIVER IN WEST VIRGINIA.

The Big Buff Coal Co., of Huntington, W. Va., reported last week as incorporating with a capital stock of \$100,000, has organized with J. B. Wilkinson of Logan, W. Va., president; J. D. Lowry, Canfield, Ky. vice-president, and Thomas H. Harvey of Huntington, secretary and treasurer.

The company owns about 3000 acres of coal land in Wyoming county, between Buff Creek and Clear Fork of Guyandotte River. This property contains coal which is said to be excellent for by-products. Its analysis showing 31.20 per cent. volatile matter, 63.95 per cent. fixed carbon and 15.52 British thermal units of heat. Mr. Harvey advises the Manufacturers' Record the company's plans for development have not yet matured.

As soon as the State Committee has settled the plan to nominate a state ticket the candidates intend to step into the limelight. The two Wesleys — Charles Wesley Swisher and Charles Wesley Dillon — are waiting until Sam Mathews announces the adjournment of the committee, and then they intend to step out as candidates for the Republican nomination for Governor Down in the Norfolk and Western

BRANCH OFFICE, LOUISVILLE, KY.

The above companies are both incorporated for \$6,000 each divided into 600 shares at \$10 each.

REUBEN FORK OIL CO. consists of Floyd McCown and Jack Aikins farms situated on the head of Reuben Fork of Lick Creek and contains 300 acres. 1st well will be located less than one mile south of Lick Creek well.

These two wells will be promoted on same general plans as we promoted the Square Deal Oil Co., the promoters retaing \$500 in stock and 1-8 part of the oil so you see if we are not successful we get nothing for our leases or labor. Who could ask for a fairer proposition? The price now asked for rentals are so high that hereafter a proposition of this kind could not be promoted on these terms.

Enough stock has already been subscribed in both of these wells to make them an assured fact and we expect to start our derricks within a week or ten days and rush same to completion.

There is oil on the West, North and East side of these tracts. What more could you ask and what other company can give you such inducements? Get your name on our subscription list before it is too late.

his interesting family he spent the
last years of life.James Stewart was born in Lawrence
county, Ky., June 19, 1853. He
was the son of Alvin Stewart, sturdy,
substantial and highly respected
people of that community.In early young manhood he went to
Ashland and east his lot with the
thriving little city which at that
early day he felt sure was to be-
come the metropolis of North-
eastern Kentucky.Of his father's family he is survived by one brother,
Marion Stewart, of Buchanan, and
one sister, Mrs. Eliza Fannin, ofHubbardstown, W. Va. In his own
family he is survived by his wife
